PROFESSIONAL SUMMARY

Computer and Information student and aspiring Full-Stack Developer with three years of hands-on experience in web development through technical education, software projects, competitions, and freelance work. Experienced in developing responsive web applications across frontend and backend environments using HTML, CSS, JavaScript, React, PHP, Laravel, MySQL, Bootstrap, and Tailwind CSS. Strong background in team-based development, problem solving, UI implementation, version control, technical presentations, and building technology solutions for real-world challenges. Interested in Full-Stack Development, Software Engineering, and AI-powered web applications.

TECHNICAL SKILLS

Programming Languages: JavaScript, PHP, Python, HTML5, CSS3

Frontend: React.js, Tailwind CSS, Bootstrap, Responsive Web Design, UI Development

Backend: PHP, Laravel, Node.js, Express.js | Databases: MySQL, Database Design

AI & APIs: Groq AI API, API Integration, AI-Powered Applications | Tools: Git, GitHub, Vite

Core: Full-Stack Development, Problem Solving, Team Collaboration, Technical Presentation, Version Control

EDUCATION

Luxor National University — Faculty of Computers and Information

First-Year Student | 2026 – Present

WE ICT Schools for Applied Technology — Assiut, Egypt

Technical Diploma for Applied Technology Schools | June 2026

PROJECTS

QuizMaster — AI-Powered Test Platform

- Co-developed an AI-powered testing platform as part of a software development team.
- Built the complete responsive frontend using React and Tailwind CSS.
- Integrated Groq AI to support AI-powered testing functionality.
- Implemented WhatsApp result sharing for delivering test results.
- Collaborated with team members throughout development, testing, and project presentation.

PureShop — Full-Stack E-Commerce Platform

- Developed a full-stack e-commerce web application with responsive user interfaces and backend functionality.
- Built frontend interfaces using HTML, CSS, JavaScript, and Bootstrap.
- Developed backend functionality using PHP and Laravel.
- Worked with MySQL databases to manage application data and backend functionality.

School Website Development | May 2025

- Led a student development team in designing and building a complete school website.
- Developed responsive interfaces using HTML, CSS, and JavaScript and implemented backend functionality using PHP and database integration.
- Coordinated development tasks and contributed to the final technical presentation.

NASA Space Apps — Climate & Weather Solution

- Participated in the NASA Space Apps local competition in Assiut as part of a development team.
- Contributed to designing and developing a web-based solution addressing weather and climate-related challenges.
- Worked on feature development, UI design, problem solving, and team collaboration.

EXPERIENCE

Full-Stack Development Experience — WE ICT Schools for Applied Technology | 2023 – 2026

- Gained three years of practical experience in frontend and backend web development through intensive technical education and project-based learning.
- Designed and developed web applications addressing practical and real-world problems.
- Worked collaboratively in software development teams and contributed to project planning, implementation, and technical presentations.
- Participated in freelance development work with responsibility for frontend user interface implementation.
- Used Git and GitHub for source control and collaborative software development.

COMPETITIONS & TRAINING

- Huawei Developer Competition — Huawei | December 2025: Participated in a team-based software development competition, strengthening technical development, teamwork, communication, and problem-solving skills.
- ISEF Science and Technology Competition: Participated with a goal-setting website project, developing independent working skills, responsibility, and project ownership.
- NASA Space Apps Local Competition — Assiut: Participated in developing a technology-based solution for weather and climate-related challenges.
- Life Skills: Positive Thinking — Midocean University | December 2025: Developed positive thinking and problem-solving skills.
- Life Skills: Self-Management — Invest Your Time Platform & Information Technology: Strengthened self-management, working under pressure, and task management skills.
